Honorable Commissioner for Patents
Washington, D.C. 20231

Sir:

Applicant, by the undersigned attorney hereby submits a Substitute Declaration for Patent Application in the above-referenced case. In the Declaration for Patent Application as filed, Applicant inadvertently failed to claim the Provisional Patent Application upon which this application is based. Thus, the Substitute Declaration for Patent Application claims a priority based upon both the Taiwan Patent Application 090130465, filed in Taiwan on 10 December 2001 and claims benefit under 35 U.S.C. 120 of Provisional Application 60/330,565, filed in the United States on 25 October 2001.

MR3003-12

Being filed concurrently with this Substitute Declaration for Patent Application is a Preliminary Amendment which inserts into the Specification of the subject patent application the fact that the application is based upon the Provisional U.S. Serial No. 60/330,565.

Please file this Substitute Declaration for Patent Application in the file of the above-referenced patent application.

Respectfully submitted,
